Palo Alto, CA 94301

Dear Mr. Zuckerberg:

The executive board of the Staten Island Young Republicans is writing to you regarding an oversight which we hope can be corrected very easily. We all began enjoying Facebook during college as a way to keep in touch with friends and acquaintances. As the features included on your website have expanded, so has our ability to use Facebook as a tool to keep our members updated on our activities.

We often send out event invitations to the members of The Richmond County Young Republicans' Facebook group, but we have come across a problem in doing so. Unfortunately, Staten Island, NY is not listed among the many cities to choose from. The only option is "Staten Island Junction, New Jersey". This hits a sore spot with us and our members, as Staten Island has a reputation as the "forgotten borough" of New York City. Our club supports candidates and elected officials who continuously fight to have Staten Island noticed and respected. We hope that you will take this opportunity to correct the oversight and help rejoin Staten Island to where it rightfully belongs, as part of New York City!

Anthony Reinhart
